DESCRIPTION

Senior Software Engineer with 6+ years of experience building scalable, high-performance web applications using React.js, Next.js, and Node.js. Expertise in API design, performance optimization, and accessibility-compliant applications with a strong focus on scalable architectures.

SKILLS

Languages: JavaScript, HTML, CSS, SQL

Testing: Jest, RTL

Frontend: React.js, Next.js, Redux

Tools: Docker, Jenkins, GitHub, Webpack, Splunk

Backend: Node.js, Prisma, PostgreSQL

Practices: Micro-Frontends, WCAG, Performance

WORK EXPERIENCE

Guardian Life, Gurugram

Dec 2021 – Present

Senior Engineer

- Led a team of five developers, managing sprint activities, mentoring juniors, and conducting code reviews to enforce best practices.
- Designed a plug-and-play Micro-Frontend architecture using Webpack Module Federation enabling modular scalability.
- Integrated GraphQL and REST APIs while collaborating with UX teams to deliver accessible and pixel-perfect features.
- Migrated applications from React to Next.js App Router improving SEO and boosting performance by 35%.
- Reduced application load time by 40% through bundle optimization, caching, and code splitting.
- Ensured WCAG 2.1 accessibility compliance across applications.
- Increased test coverage from 60% to 95% using Jest and React Testing Library.

Tata Consultancy Services, Kolkata

Nov 2019 – Nov 2021

System Engineer

- Developed reusable React.js components improving developer efficiency and reducing delivery timelines.
- Delivered multiple insurance-focused applications ensuring high performance and reliability.
- Built reusable component libraries and design systems used across projects.
- Collaborated with cross-functional teams under Agile methodology to ensure high quality releases.
- Recognized multiple times for on-time delivery of high quality feature releases.
- Implemented Micro-Frontend architecture adopted across multiple business units.
- Improved application performance by 40% and increased test coverage by 20%.

PROJECT WORK

Recruitment Dashboard

Built a full-stack recruitment management platform for consultancy firms to manage hiring pipelines and candidate workflows. Implemented API caching for cost optimization.

Stack: React.js, Node.js, PostgreSQL, Prisma, Nodemailer

EDUCATION

NIET Greater Noida

Aug 2015 – Jun 2019

CGPA: 7.96/10

B.Tech in Information Technology

Relevant Coursework : Data Structures, Algorithms, Databases, Operating Systems, Computer Networks

AWARDS AND CERTIFICATES

- **Cheers for Champions Award** – awarded for delivering a feature that reduced calls to the call center by 80%.
- **High Five Award** - received the High Five Award twice for the best performer.
